## **CERECONS Product Suite Selected by University Physicians Healthcare**

*June 7, 2010 // ANAHEIM HILLS, CALIFORNIA*— Unlimited Innovations, the developer of CERECONS innovative, affordable software for the healthcare industry, has been selected as the health IT product solution by University Physicians Healthcare (UPH), Arizona's largest physicians group based in Tucson.

"CERECONS will support UHP in their effort to automate key business processes like referrals, claims and eligibility," said Unlimited Innovations President Philip Paul. "CERECONS product suite will support UHP in their goal to better manage operational and clinical data and to increase overall efficiency."

UPH is a nonprofit corporation founded in 1985 as the medical practice of the physicians of The University of Arizona College of Medicine. Together with University Physicians Hospital, the University of Arizona and University Medical Center, UPH cares for patients, educates medical students, trains physicians, and conducts clinical research. With more than 450 physicians, 800 nurses and 2,000 staff, UPH is Arizona's largest physicians group.

### **About CERECONS**

CERECONS is a cloud-based platform designed for clinical integration, medical management and patient engagement using community-based electronic health records. With CERECONS innovative product suite, medical groups, MSOs, IPAs, physicians and hospitals benefit from rapid, affordable health IT solutions to help them manage a wide range of clinical and operational data, and patients gain access to their healthcare information. A web-based Software as a Service (SaaS) solution, CERECONS can be rapidly installed and easily maintained with minimal impact on existing IT resources. CERECONS is the healthcare division of Unlimited Innovations, Inc.
