## **EZ-CAP Healthcare Users Gain Easy Access To Front-End Healthcare Management System CERECONS Announced as EZ-PARTNER Affiliate**

*March 10, 2010 ANAHEIM HILLS, CA* — Unlimited Innovations, developer of the CERECONS software for healthcare organizations, announced the signing of an EZ-PARTNER® agreement with MZI HealthCare, in advance of the EZ-CAP® Western Regional User Group Conference, which begins March 25 in Huntington Beach.

The agreement provides EZ-CAP users with additional functionality through CERECONS front-end functions, including provider and administrative dashboards, a patient portal and many other modules, within a framework sanctioned by MZI HealthCare.

The integration of EZ-CAP with the CERECONS product is the result of CERECON's acceptance into the EZ-PARTNER program. The EZ-CAP Application Program Interface (API) and the MZI Transaction Server provide the integration to CERECONS.

CERECONS has been used by Medical Service Organizations and Independent Practice Associations for many years. With this agreement, healthcare organizations gain a new, expanded offering and a complete information management solution.

### **About CERECONS**

CERECONS provides healthcare organizations with rapid, affordable means to manage a wide range of clinical and operational data, and also provide patients with access to their healthcare information. As a web-based Software as a Service (SaaS) offering, CERECONS can be quickly installed and consistently maintained with minimal impact on internal information technology resources. Modules include authorization management, clinical reporting, claims administration and inpatient activities, as well as Electronic Health Record (EHR). Health plans, medical groups, hospital administrators, physicians and patients benefit from simplified healthcare transaction processing and coordination. CERECONS is the healthcare division of Unlimited Innovations.
